### **Abstract**

Please read this content carefully before submitting the abstract. This will assist in ensuring compliance with the ICACME 2025 guidelines. The abstract should be prepared as a **single, concise paragraph**. It should cover the following elements: 1. The research background or review context, paper objectives, 2. Methods employed, 3. Key results or outcomes and 4. Brief conclusions (2-4 sentences per section recommended). These sections should be presented logically and clearly. The abstract word limit must strictly range between **150 and 200 words**. Use A4-size paper and adhere to the provided template. For the abstract, use Times New Roman font, size 10, with 1.5 line spacing. It is assumed that the submitting author has read and followed the guidelines before submission and that all authors are aware of ethical considerations, plagiarism policies, registration, presentation, and publication requirements. Include three to five keywords in alphabetical order, separated by semicolons, to facilitate easy search and retrieval of your paper online. Prefer phrases of 2-4 words for keywords, although single-word keywords are permitted, but they might result in irrelevant matches. You may add a figure or table if available.

**Keywords:** Abstract template; content guidelines; ICACME 2025; template information.
